What is iLink?

iLink is the new integrated smartcard from Translink which provides unlimited day, weekly or monthly bus and rail travel within 3 specified zones across Northern Ireland.

iLink is available for adults and children and is ideal if you travel by both bus and train to your destination on a regular basis.

iLink is a smartcard which you can top-up again and again, so when you need more travel you simply bring the same iLink Card back to one of our sales outlets and top-up your card with travel for a day, week or month.

iLink Zones

iLink is available for travel on Metro, NI Railways and Ulsterbus services within 3 Zones in Northern Ireland. For full details of iLink Zones click www.translink.co.uk.

What are the benefits?

- It saves you money. If you travel by bus and train within specified zones, using iLink could be better value for money than buying separate bus and train tickets. Check out the prices to see if iLink suits you.
- There are no restrictions on the number of bus or rail journeys you can make on your iLink Card within the Zone your card has been issued.
- It is a safer, cash free way to make your daily bus and rail journeys.
- iLink helps speed up boarding times on buses making overall journey times faster for everyone.
- If you lose your iLink Card it can be 'hotlisted' (electronically deactivated) to prevent anyone else from using it fraudulently.
- iLink Cards can only be used by one person per journey, but you can pass your card to a friend or family member if they are travelling at a different time with the same zone.
